**About Krausz**

Krausz Industries, the creator of HYMAX, develops, designs, and manufactures market-leading smart products for repairing and connecting different types of pipes for both potable water and sewage. In more than 90 years of industry leadership, and millions of installations worldwide, Krausz has earned a solid reputation for providing innovative, high-quality products, that meet installers' field needs. Krausz offers a broad portfolio of solutions, including standard products that range from 1.5" to 70" and custom-made products according to customers' requirements.

Krausz is a company built by industry experts with extensive field experience. Therefore, we can better understand the challenges of the installer and provide real solutions. Its HYMAX wide-range coupling introduced unprecedented ease of use, with a radial closing mechanism of only 2-4 top-facing bolts, enabling faster and safer installation. The HYMAX product lines save costs by reducing inventory and providing long lasting value. Offering extreme durability and outstanding connection flexibility, the HYMAX products prevent future pipe damage, delivering long-lasting value.
